

ENVIRONMENTAL POLICY STATEMENT

Scope: Manufacture of seam welded tube for the UK and overseas markets

Enfield Tubes Limited recognise that protection of the environment should form an integral and fundamental part of the business. We are aware of the impact our operations have on the environment and are fully committed to achieving continuous improvement in all aspects of our environmental performance.

To this aim, the company has undertaken to implement, manage and maintain an environmental management system compliant to BS ISO14001:2015. As part of that standard, our practises and procedures include but are not limited to:

- Legislative, regulatory and code of practice compliance.
- Conducting regular and detailed assessments of our environmental aspects and impacts.
- The continued reduction in use of all forms of natural resources wherever possible.
- The continued reduction in emissions and all forms of pollution.
- Environmentally responsible materials purchasing and sourcing policies.
- Waste minimisation through efficient production processes and stock control.
- Active recycling strategies for both metal and packaging materials.
- Promotion of our materials as a sustainable, competitive solution by virtue of their functionality, recyclability and lightweighting potential in vehicle applications, as well as their natural abundance in mineral form.
- Establishing targets to measure the continuous improvement in our environmental performance.
- Training, education and communication of policy, procedures and objectives with all of our team on a regular basis.
